

EFFECTIVE

August 1, 2019.

Subject(s)**Administrative Policy Facilities and Hospitals (APF) 169, Crisis Intervention**

The Michigan Department of Health and Human Services (MDHHS) policy relating to crisis intervention training and techniques across the state inpatient hospital system.

The minimum level of required training is based on the training level of the hospital staff. In specific instances (such as in situations when staff have physical limitations or if day-to-day patient management is not a necessary duty) hospital administration may, on a case-by-case basis and if documented in the employee's personnel file, waive staff training level requirements.

For more information concerning this policy contact the Bureau of Hospitals and Administrative Operations.

Reason: Patient safety; hospital system continuity; update.
